

Craft and Teddy Bear Club 2009

Interested in making a gorgeous Teddy Bear? Keep your eye on the daily notices.

Gisborne Intermediate Food Tech Room becomes a hive of activity with enthusiastic pupils making Teddy Bears or working on handcraft projects e.g. cross-stitch or appliqué.

Children meet with Mrs More several days a week before school and lunchtime to create their bears or work on craft projects.

It is wonderfully rewarding to see the children's delight and sense of achievement when they complete each bear or project. Many have taken it on as a hobby at home and other family members have become just as enthusiastic.

The bears are beautiful; each one has its own original look and is issued with a birth certificate and given a name by its creator.

Children who are interested in joining this group will be invited to a meeting in the Food Tech room in the first few weeks of term, to collect more detailed information.
